AMENDMENT UNDER 37 C.F.R. § 1.111 Attorney Docket No.: A8521

Appln. No.: 09/489,143

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (previously presented): A method for determining the cost of a content object having a plurality of content entities, comprising the steps of:

determining a content count for the content object; and determining from the content count a price for the content object.

- 2. (original): The method of claim 1, wherein the step of determining a content count further comprises the steps of determining a content count for each content entity, and summing the entity content counts to obtain a content count for the content object.
- 3. (original): The method of claim 2, wherein the step of obtaining a content count for entities containing characters further comprises the step of determining a character count for the entity.
- 4. (original): The method of claim 3, wherein the step of obtaining a content count further comprises the step of determining a page count from the character count.
- 5. (previously presented): The method of claim 3, wherein the step of obtaining a character count further comprises at least one of:

counting the number of content characters in the content entity; and

determining the content entity type, and determining an average character count for content entities of that type.

Attorney Docket No.: A8521

AMENDMENT UNDER 37 C.F.R. § 1.111 Appln. No.: 09/489,143

6. (original): The method of claim 4, wherein the step of determining a content object price further comprises multiplying the page count with a predetermined price per page value.

- 7. (original): The method of claim 1, wherein at least one of the content entities comprises user-provided content, and wherein determining a price for the content object further comprises the steps of separately determining a price for user provided content and summing it with the price determined for the remaining content entities of the content object.
- 8. (previously presented): The method of claim 7, wherein the price for user-provided material is determined in a first manner if the content count exceeds a predefined content count maximum, and is determined in a second manner if the content count does not exceed the predefined maximum.
- 9. (previously presented): A program storage device readable by a machine, tangibly embodying a program of instructions executable by the machine to perform method steps for determining the cost of a content object having a plurality of content entities, comprising the steps of:

determining a content count for the content object; and determining from the content count a price for the content object.

10. (original): The method of claim 9, wherein the step of determining a content count further comprises the steps of determining a content count for each content entity, and summing the entity content counts to obtain a content count for the content object.

AMENDMENT UNDER 37 C.F.R. § 1.111 Attorney Docket No.: A8521

Appln. No.: 09/489,143

11. (original): The method of claim 10, wherein the step of obtaining a content count for entities containing characters further comprises the step of determining a character count for the entity.

- 12. (original): The method of claim 11, wherein the step of obtaining a content count further comprises the step of determining a page count from the character count.
- 13. (previously presented): The method of claim 11, wherein the step of obtaining a character count further comprises at least one of:

counting the number of content characters in the content entity; and determining the content entity type, and determining an average character count for content entities of that type.

- 14. (currently amended): The method of claim 12, wherein the step of determining a content object price further comprises the step of multiplying the page count with a predetermined-predetermined-price per page value.
- 15. (original): The method of claim 9, wherein at least one of the content entities comprises user-provided content, and wherein the step of determining a price for the content object further comprises the steps of separately determining a price for user provided content and summing it with the price determined for the remaining content entities of the content object.
- 16. (currently amended): The method of claim 15, wherein the price for user-provided material is determined in a first manner if the content count exceeds a predefined content count maximum, and is determined in a second manner of the countent count does not exceed the predefined maximum.

AMENDMENT UNDER 37 C.F.R. § 1.111 Attorney Docket No.: A8521

Appln. No.: 09/489,143

.7

17. (previously presented): A system for determining the cost of a content object having a plurality of content entities, comprising:

means for determining a content count for the content object; and means for determining a price for the content object from the content count.

- 18. (original): The system of claim 17, wherein the means for determining a content count further comprises means for determining a content count for each content entity, and means for summing the entity content counts to obtain a content count for the content object.
- 19. (original): The system of claim 18, wherein the means for obtaining a content count for entities containing characters further comprises means for determining a character count for the entity.
- 20. (original): The system of claim 19, wherein the means for obtaining a content count further comprises means for determining a page count from the character count.
- 21. (original): The system of claim 19, wherein the means for obtaining a character count further comprises at least one of a) means for counting the number of content characters in the content entity; and b) means for determining the content entity type, and means for determining an average character count for content entities of that type.
- 22. (original): The system of claim 20, wherein the means for determining a content object price further comprises means for multiplying the page count with a predetermined price per page value.
- 23. (original): The system of claim 17, wherein at least one of the content entities comprises user-provided content, and wherein the means for determining a price for the content object further comprises means for separately determining a price for user provided content and

AMENDMENT UNDER 37 C.F.R. § 1.111

Appln. No.: 09/489,143

means for summing the separately determined price with the price determined for the remaining content entities of the content object.

Attorney Docket No.: A8521

- 24. (previously presented): The system of claim 23, wherein the price for user-provided material is determined in a first manner if the content count exceeds a predefined content count maximum, and is determined in a second manner if the content count does not exceed the predefined maximum.
- 25. (previously presented): A method for determining the cost of a content object having a plurality of content entities according to claim 1, wherein said content object comprises an electronic book created by a user and wherein said electronic book comprises a plurality of content entities selected by the user.
- 26. (previously presented): A program storage device readable by a machine according to claim 9, wherein said content object comprises an electronic book created by a user and wherein said electronic book comprises a plurality of content entities selected by the user.
- 27. (previously presented): A system for determining the cost of a content object having a plurality of content entities according to claim 17, wherein said content object comprises an electronic book created by a user and wherein said electronic book comprises a plurality of content entities selected by the user.
